Declarations from the Brooklyn Jockey Club's Handleaps, Secretary Hugh D. McIntyre announces that the following horses have been declared from the handleaps of the Brooklyn Joskey Club:

Rooklyn Handleap—Teuton, 108 pounds; Lamplighter, 105.

Fort Hamilton Handleap—His Highness, 124 pounds;

Higher, 145.

Fort Hamilton Handicap—Ilis Highness, 124 pounds, Victory, 130; Ludwig, 112; Yo Tambler, 110; Atonro, 130; Parages, 10d. Teuton was the wild Western tip for both the Brooklyn and Suburban last year, and he was awily played in the future books. The big norae went wrong, however, and did not go to the bost in either event. His declaration from the Brooklyn is almost conclusive proof that has not rounded to. Lamplighter is a three-pear-old, and Messrs. Rogers & Brown do mucare to start him in an event where he is a fileavily handicapped. No three-year-old can hold his own with older horses at anything like scale weights in the spring.

Indians on the War Path.

As usual internal dissensions are again at work in the ranks of the Pastime Athletic Club, and the annual election on next Tuesday night threatens to be an old election on next Tuesday night threatens to be an old-time "Indian Razoo" of the wildest sort eclipsing even the period which made King Jim Sullivan lay down his seekers in despair. There are four candidates an nowneed for the Presidency, and almost as great a number for the other offices. The wildest charges of minanagement are flying about.

The Kominating Committee has submitted the fol-lowing steat, but day and night the sharpening of stee is heard upon the bleak East River binft: Fresi-dent, Daniel Reit; Vice-Fresident, Harry times; Treas-urer, Dr. Merrigan; Recording Secretary, J. P. Boyle; Financial Secretary, J. Helf; Captain, J. Kinn; Liou-tenant, H. Beth.

THE HORSE AND CARRIAGE TRADE Lively Times Expected When the Spring

Within a month the local horse market will vicinity will then be in good shape. Those who have horses wintering in the country will have them home then, and those who sold out last fall will be in search of something to take

their places.
A great many New York dealers are shaping up pairs of matched carriage horses, toppy drivers, and fine saddle horses, so as to be able to take advantage of the occasion, while the Western, Southern, and Northern brigade will swoop down and take Gotham by storm.

The regular Tuesday and Friday auction

sale of horses conducted by Messrs. Van Tassel & Kearney were well attended last week, and a large number of horses changed hands at prices that were satisfactory. The following are standard quotations in the local market: Pairs of matched carriage horses.

The Columbia Wagon Company, at 422 to 420 West Fifteenth street, manufacture all kinds of business wagons, but make a specialty of fancy, light delivery wagons, suitable for the dry goods, laundry and other businesses. Their "Elipse" is one of the most durable farm wagons made. The gear of this wagon is light, has few parts, and is constructed of steel. A patent truss bears all the load at or near the axles. The wheels, consequently, cannot got out of track, and the wagon must run easily. It is sumplied with Warner's patent sixteen-spoke wheels and Hutchinson's patent cog roller brake.

Business is booming with Edward Callanan's Son, the carriage builder, whose factory is at 54 West Forty-fourth street. He was engaged all last week giving estimates, and is at work on designs for a half a dozen new carriages. Mr. Callanan expects to be able to open his new repository at 1,522 Broadway in about ten days. This will be equipped with a selected stock of all the modern styles of carriaros and fancy traps, mostly of his own make.

John Ewing Expects to Pitch Again.

CISCUSSATI, Feb. 22.—Out at his home on St. Peter street in the East End, John Ewing has been having an ail-winter battle for life. The struggle has been a hard one, but he is conductn now that the victory will be his. For the first time in several weeks he was able to his. For the first time in several weeks he was able to leave his bed on Saturday, and Dr. Watson now speaks encouragingly of the future. The day after Buck Ewing, his brother, left for Het Springs, the startling story of John's serious condition was teid him.

"This grip is terrible," said John. "It settled on my langs, but I'm not coughing buil as much as I did some weeks ago. I'll be happy if I'm able to report for dity in July, Still, you can't teil."

John has a scrap book that he keeps with his freasure. He would not part with it for many a deliar, for it, contains mewapaper clippings of every game in which he has officiated since he became a professional. "I think I'm the only baseball player in the country with such a complete record. It took work and patience in the series of passe to make that book. There are not into a passe to make that book. There are made, in the book. "I'll never forget one of them; said John. "I't was in New York during the life of the Players' League. We were playing theyeland, and had them 4 to 0. In the ninth inning I hit the basi into the seats. Sometonly got it and drapped it out of sight, or I'd have been caught. We needed that run, for Gleveland is a displayed out on the after my sprint and made four runs.

President John B. Day is out with the announcement that he will take the Richardson case before the League meeting and fight the matter to a finish. Mr. Day is quoted as saying that he will make the context on the ground that by reason of the option clause in Richardson's contract be was practically under con-tract with the New York Club on Dec. 5, and that the agreement was that all players under contract with a agreement was that all players under contract with a club on Der. 5 should remain with that club. Mr. Day, therefore, claims that the Committee on Players had no right to award filthardian to Washington.

There is a very general impression that such a move as that contemplated by Fresident Day will be nuscless expenditure of entergy, or Lesgue officials all over less expenditure of entergy, or Lesgue officials all over less expenditures of entergy to the contract of the con

Why Capt. Ewing Would Buther Have Mack.

Cincurate, Feb. 22—There is considerable speculation about Capt. Ewing's preference for "Red" Mack as a second baseman over Charley Hassett, Card writers have given expression to their surprise in Tus Sus en route to the liot Springs. Capt. Ewing made a revelation that will explain matters. "Ed rather have Mack," said be, "because I blame Bassett for young Rusie's lettup last fail. He was as atraight as a string until the got indulying in some of the quiet budging parties given by Bassett. Few people know that, but I'm on the lookout this year to strengthen the New Yorks at every point."

JOENT ARMORY GAMES. The Cathedrale and Ninth Regiment Afford

The joint games of the Cathedral Athletic Association and Company E, Ninth Regiment, were held at the latter's armory in West Twenty-sixth street last night. The attendance was large, and while the meeting was made conspicuous by the absence of our crack amateurs, the contests were of an order that set the crowd wild with enthusiasm, and not much more could be asked for. The manage-ment was excellent, the eight competitions

terminating at a seasonable hour.

During the progress of the games a slight fire was discovered in Company E's room, but was extinguished before any damage was done. The guests up stairs knew nothing of

SER THE FINE DOGS TO-DAY. The Great Bench Show at Madison Squi Garden Opens this Morning.

"Only about half of the dogs entered are now here," said Superintendent Mortimer last night during a temporary cossation of barks and yelps. "Nearly all the dogs from a distance have arrived, and the remainder will be here in the morning. However, we were all ready for them yesterday."

The kennels were certainly all in place, the

four judging rings were ready for business. Judging from the vocal riot raised by half the

high-bred crew last night, the uproar to-day when the other half join in the chorus will be

when the other half join in the chorus will be something appalling. When 1,000 dogs set up a combined howl, in which are mingled the sharp yelps of the terriers, the bellow of the mastiffs, and the deep baying of the bounds, the general effect is ear shattering. There were quite a number of visitors in the Garden last night. In one of the judging rings, Lord Melrose, a monstrous St. Bernard, was led around by an attendant while dogs tied in kennels near by barked enviousir.

"Yes," said the man leading the big dog. "we claim he is the tailest dog in the world, 35 inches. And he weighs 210; that is to say he weighs 208, but that's near enough to say 10."

"To the suggestion that, on the basis of wolght, his height would be about 30 inches, the attendant maintained a cold slience.

A dog that attracted a great deal of attention last night was the great mastiff. Beaufort's Black Prince, 18 months old and weighing 187 pounds. "Don't think there is anything in the world to beat him." said J. I., Winchell, the owner, leoking proudly at the big beast. "See that head. Finest head of any dog in the world."

Frince has a decidedly squatty countenance, with a black study nose and cavernous mouth. Nothing uglier can be imagined, and yet from the fancier's point of view the dog's face is a dream of beauty and symmetry. "He can jump over a four-foot fence as lightly as a greybound. Do you know that people have a wrong impression of bloodhounds? They consider them savage, ugly brutas. On the contrary they are the most docile and companionable of any dore the most docile and companionable of the brown and black long-eared, inoffensive-looking animal on the head. "He never fights unless attacked, and then he fights hard and wins."

Sir Bedivers, the great St Bernard arrived. wins."

Sir Bedivers, the great St. Bernard, arrived in town yesterday, but declined to go to the Garden till the show was under way. Bir Bedivere is a thorough aristocrat. He rooms at the Ashland House, having an entire apartment to himself, while an attendant sleeps in an adjoining room. The big fellow goes to the hotel every night.

 Why Bougherty Refused to Back Blavin,

Boston, Feb. 22.—A letter has been received in this city from Mr. Dougherty of Melbourne, the ex-backer of Frank Slavin. In Month he explains why he refused to back Slavin to fight sullivan. Mr. Dougherty says: "I shall have to be very much better satisfied with the aspect of affairs before I put up my money. I shall require to know first that Slavin has acted squarely her Fresse in the matter of the Jackson match. Then if the match came off in America I should want it to take place at the California Ciub. If slavin has lecated his best friends in England haddy, he will not get any backing from me while he is with Mitchell."

Many People Have It and De Not Know It-How to Recognize the Symptoms

Hundreds of people have the Grippe who do not know it. Not necessarily the final stages, but the first stages. They feel pains in the bead, and a bad taste in the they indicate the coming of Grippe.

they indicate the coming of Grippe.

There is but one thing to do when these symptoms appear, and that is to take prompt and vigorium mean ures to fortify nature to repet the enemy. A little wall directed effort at just the right time will accomplish very much more than labored efforts afterward. There is but one thing to be done, and that is to use a nore stimulant, something that will promptly arrest, and in no way injure, something endorsed by scientiats, recommended by physicians, and popular because so efficient—Duffy's Pure Mail Whiskey. Two years ago, and last year when the Grippe was rading, this was the standard remedy used and recommended by the proand last year when the Grippe was raming, this was the standard remedy used and recommended by the profession. It did more to prevent the Grippe than all other known or recommended remedies. It preserved many people in health who would otherwise have been grievously sick, perhaps even worse. It is as efficient to-day as ever. It should be borne in mind that other so-called whiskeys may not be so efficient, and if any dealer asserts that such whiskeys are the same distrust him at once. There is but one mediatest whiskey, and that is Duffy's Pure Malt.

Shipbuilding in New England,

Bangon, Feb. 22.-While Maine is the great centre of American wooden shipbuilding, other New England States are actively engaged in the construction of new tonnage for special purposes, notably Connecticut and Massachusetts. New London is famous for its fast-sailing colliers of the three and four mast schooner rig. while at Stonington many barges are built for the general freight traffic on the ter's matchless fishing fleet is built.
From Connecticut shipyards in 1801 were

launched 17 schooners, d sloops, 2 steam ves-sels, and 11 barges, a total of 33 vessels, having an aggregate tonnage of 16,213.98 net, of which amount New London and Stonington contributed more than 13,000 tons. Massa-chusetts launched 47 schooners, 8 sloops, 13 chusetts launched 47 schooners, 8 sloops, 13 stenm vessels, and 5 barges, a total of 73 vessels, aggregating 9,243.17 tons net, while Rhode Island contributed 2 schooners, 1 sloop, and 2 steam vessels of 454.70 tons, making a total for New England, outside of Maine, of 25,913.85 tons. Add to that Maine's new tonnage, amounting to 53,985.18, and the grand total for New England foots up 79,908.03 tons. As compared with the outnut of 1800 the figures show a loss of nearly 20,000 tons. Maine and Massachusetts having failen off about 25,000 tons, while Connecticut gained about 5,000 tons. The outlook for 1892 in all of the New England States is considered good, and it is likely that this year's construction will exceed that of 1891.

Shipbuilding in the maritime provinces seems to have failen into a hopeless decline, and not only is the amount of new construction growing lesses every year, but the existing fleet is shrinking rapidly in numbers, tonnage, and value. Losses by wreck, fire, and transfers to other countries and flags are not made good by new tonnage, and unless some decided change for the better comes soon, the provinces will not cut much of a figure in the maritime world at the beginning of the twentieth century. The deal trade of St. John is not what it used to be; Canadian sailing vessels, like our own, have suffered on account of English steam tramps, and general business in the provinces is dull.

Pittagenes, Feb. 22.—The most powerful association football team in the West, the Chicago Cricket team, came to Fittaburgh expecting a picnic with the local team. They found foomen worthy of their prowess, and contested a well-fought battle instead. The result was a draw, the acore being 2 to 2. About 2,500 spectators were present. The grounds were very muddy, and both teams suffered in consequence. The leading feature in the game was Walden's nieling the acore for the Pittaburgh and the waldion's nieling this carro goal. In dribbiling Waldron had a "fall packet" at his side, who had to be dealt with by one lock while waldron took care of the ball with the other played in great style, but lead took of the pittaburgh in the Chicago team is the best feam that has ever visited Pittaburgh. Bacon Will Have to Skate Over Again, Boston, Feb. 23.—The dissatisfaction over the awari of the skating championship to Bacon has become so widespread that Col. Fuller, the denor of the medals, has declared the contest invalid. He says that there must be another contest before the championship medal will be awarded. He bases this action on the ground that there was no referee a circumstance which gives him the right to withhold the medals. This decision was ratified at a conference of the New England Amateur Skattny Association officials yesterday, and a new date will be fixed when the weather is suitable for skating.
